No. 5346

Guidelines for Proper Use

Read all directions and enclosed information carefully before fitting your mouthguard. Wear your mouthguard at all times during play to avoid dental injury. Be careful when using boiling water. Do not put mouthguard into mouth directly from hot water. Adult supervision required. Discard and replace if top and bottom teeth break through mouthguard. Injury, including loss of teeth, may occur to you despite the use of this mouthguard. No mouthguard can prevent all injuries a user might receive while participating in athletic activities. All sports activities have intrinsic hazards and participation in such sports implies acceptance of some risk of injury.

Directions:

1. Insert three prong mouthguard clip, with strap attached, into mouthguard. Make sure all three prongs are completely inserted into the mouthguard. Do not detach mouthguard clip or strap from mouthguard during fitting process.
2. Boil water in a 1 quart pan. Fill another container with cold water. After water has boiled, remove from burner and place next to container of cold water on heat resistant surface. Let stand for 1 minute. Holding mouthguard by the end of its strap, place mouth portion of mouthguard in pot of hot water for 12 seconds (if you wear braces, place in hot water for 10 seconds).
3. Remove mouth guard from hot water and place in cold water for 2 seconds, then immediately place guard in mouth while in front of a mirror. (Mouthguard should be warm but not hot).
4. Gently bite down. Use your fingers or tongue to push the mouthguard tightly against your upper teeth to ensure it is flat against your front teeth.
5. Use a strong sucking motion to ensure all air and water are out of the mouth guard.
6. Remove the mouthguard from your mouth and place in cold water container for 30 seconds to set.
7. Try on to ensure proper fit. If proper fit not achieved, repeat Steps 1 through 5.
8. After fitting process is complete soak mouthguard with clip inserted into mouthguard in ice water for 1 minute.
9. Do not chew mouthguard.

Helpful Hints:

1. If your mouthguard is too large, trim off the ends before fitting.
2. To clean your mouthguard, rinse in cold water and brush with toothpaste.
3. Fit mouthguard in front of a mirror for best fit.
4. To attach strap to helmet, release hook and loop closure and attach to lower center front portion of wire cage.
5. When using mouthguard for non-helmet sports, remove and store strap in case.
6. Do not chew mouthguard.

- (3) The actual dental expense incurred by the User up to \$7,500.00.

- (6) The complete mouthguard unit is returned to Franklin with the written notice of injury. The mouthguard unit shall then become the property of Franklin upon receipt of return; and

This Warranty is made in lieu of all other warranties, expressed or implied, including, but not limited to, the implied warranty of fitness for a particular purpose, and any implied warranty arising out of a course of a dealing, custom, usage or trade. Except as otherwise expressly provided herein, Franklin Sports waives all liability for loss, injury or damage based upon negligent design or defects in materials and workmanship within mouthguard. Franklin expressly limits its liability to exclude any incidental or consequential damages, or implied warranties from the use of this product except as provided expressly herein.

Some states do not allow the exclusion or limitation of incidental or consequential damages, or implied warranties, so certain of those above limitations or exclusions may not apply to User in those states. This Warranty gives you specific legal rights, and you may also have other legal rights which may vary from state to state. This Warranty only applies to mouth guards sold at retail to User.
