

Instructions for Assembly

1. Attach the Flange to Base (D) by inserting Flange Part (A) through Base (D) and tightening Flange Part (B) until snug.
2. Insert Tube (E) into Flange Part (C) and push tube (E) into Flange Part (B). Tighten Flange Part(C) until snug.
3. Extend Tube (F) out of Tube (E). Flange Assembly between Tube (F&E) permits height adjustments. To change height loosen flange, reposition to higher or lower setting then re-tighten flange.
- 3A. Optional Swivel assembly can be used by inserting Part (J) into Part (F). Only available for item 1577.
4. Push Batting Tee (G) approximately 5 inches onto tube (F) with bristle on top.
5. Attach rubber eyebolt (I) to Base (D) by pushing up from bottom of base. (see Eyebolt assembly illustration). Make sure Eyebolt assembly is securely seated in base. Once seated it cannot be removed easily.
6. Tie return cord Part (H) securely to rubber eye bolt Part (I). Only available for item 1577.
7. Place ball on ball cradle and you are ready to begin. Only available for item 1577.

Note: If Assembly Tee is too high at it's lowest height setting you may cut down Part (G) a maximum of 6 inches.

EYEBOLT ASSEMBLY

* Note: item 1559 does not feature a ball return device or the optional swivel assembly. Parts H, I, and J.

* Note: Look inside tube (E) to find tube (F), pull (F) from (E) for assembly

Place tube into self-stick straps for easy transportation.

Franklin[®] BATTING TIPS

BATTING TEE ASSEMBLY INSTRUCTIONS

Item No. 1559 & 1577

Although you are learning to hit a baseball from a batting tee, it is very important to learn what consists of the strike zone. The ball must be pitched between the left and right sides of the home plate and pass between your shoulders and knees. Therefore, when using this batting tee, make sure you adjust it so that the ball is placed between this area. Try to learn not to hit balls below the knee or above your shoulders. Once you learn the strike zone and play with a pitched ball, you will not swing at bad pitches.

Figure 1 shows a relaxed and proper batting stance and Figure 2 shows what a completed swing should look like and the correct path.

Practice using this batter's tee regularly and watch your batting skills improve.

Remember to keep your eye on the ball and take a free, natural swing and you will make proper contact.
